Humans think they're the most advanced beings on Earth, but adventurer and Renaissance man Chase Baker just stumbled onto something that will blow the lid off that fantasy for good. As Chase discovers, an even more advanced species lives side-by-side with humanity, quietly ruling the world with incredible technology. But when that technology falls into the wrong hands, it's up to Chase to stop the creation of the Apocalypse Bomb, a weapon so powerful it could destroy Earth in an instant. No less than the fate of the world rests on his success, but nefarious Men in Black, an "ultraterrestrial" with a grudge against humans and conniving UFO tourists will stop at nothing to thwart his mission. Chase Baker the Apocalypse Bomb is a riveting ride packed with action, twists and turns. It's perfect for fans of Clive Cussler, Dan Brown and JR Rain.
