He has taught in its Sunday school a class of young men. On the first page of the King James Version of the Bible the date of the creation is given as 4004 B. C. When a young man goes to college he learns from such teachers as Professor Henry S. Williams, Ph.D., Professor of Geology at Yale University, that the strata of the earth we live on represent a duration of time of at least fifty million years. Forty years ago we were taught in the Sunday school that the date given on the first page of the Bible was correct; that the world was made in six days time, by God, 4004 years B. C. We believed it then without question, and when we came to know better we...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
