in the subject Psychology - Clinic and Health Psychology,
Abnormal Psychology, grade: 8, University of Groningen,
language: English, abstract: That a positive attitude and
psychological support can promote the therapy of cancer and
even encourage the cure is a widely held view. In this paper the
capabilities and limitations of positive psychology and
psychotherapy will be discussed with the aid of two studies. The
first one has laid the foundation for this research area and the
second study replicated the latter using a more appropriate
methodology. It will be shown that some assumptions made in
recent decades are not more than parts of a myth, which is
progressively dissolved by high quality studies. 16 pp. Englisch.
